A. Filter

The image shows a 'Filter Data' modal window overlaid on a dashboard. The modal has a title bar with a close button (X). Inside, there are four filter sections: 'Customers' with a dropdown menu labeled 'Pilih Customer'; 'Order tanggal' with a text input field; 'Order Type' with a dropdown menu labeled 'Pilih Type'; and 'Status' with a dropdown menu labeled 'Pilih Status'. At the bottom right of the modal are two buttons: 'Close' and 'Apply'. The background dashboard shows a sidebar with a menu icon, a 'Filter' button, and a table with columns 'No' and 'Order'.

1. URL "domain/paneladmin/order"
2. Terdapat empat filter yaitu Customers, Tanggal Order, Tipe Order dan status (Pending, Approved dan Canceled), ketika klik "Apply" list data akan berubah.
3. Filter Data berpengaruh pada list data dan export

Notes

Approve This Request Cancel This Request

1. Dalam form detail menampilkan detail order, customer dan approval order.

Approve This Request

Cancel This Request

2.

Ada dua aksi dalam detail order. Yaitu Approve dan Cancel Order. Jika order tersebut di approve atau dicancel maka customer akan menerima email terkait order tersebut di approve atau dicancel.

D. Export

Export akan menghasilkan file excel. Jika filter diset, maka data yang di export akan sesuai filter tersebut.
