A. Filter

The screenshot shows a web application interface for 'Master Customer'. A modal dialog titled 'Filter Data' is open, allowing users to filter the data. The dialog contains two input fields: 'Dibuat tanggal' (Created date) and 'Status'. The 'Status' field is a dropdown menu with the text 'Pilih Status' and a downward arrow. Below the input fields are two buttons: 'Close' and 'Apply'. The background shows a table with one entry, 'customer', with email 'customer@gmail.com' and status 'Active'. The table has columns 'No', 'Name', and 'Email'. The status 'Active' is shown in a green pill. The footer of the table says 'Showing 1 to 1 of 1 entries'.

No	Name	Email	Status
1	customer	customer@gmail.com	Active

1. URL "domain/paneladmin/master-customer"
2. Terdapat dua filter yaitu Tanggal dibuat dan status (Active & Not Active), ketika klik "Apply" list data akan berubah.
3. Filter Data berpengaruh pada list data dan export

Edit Customer

Name *

customer

Email *

customer@gmail.com

Phone Number *

Enter Phone Number

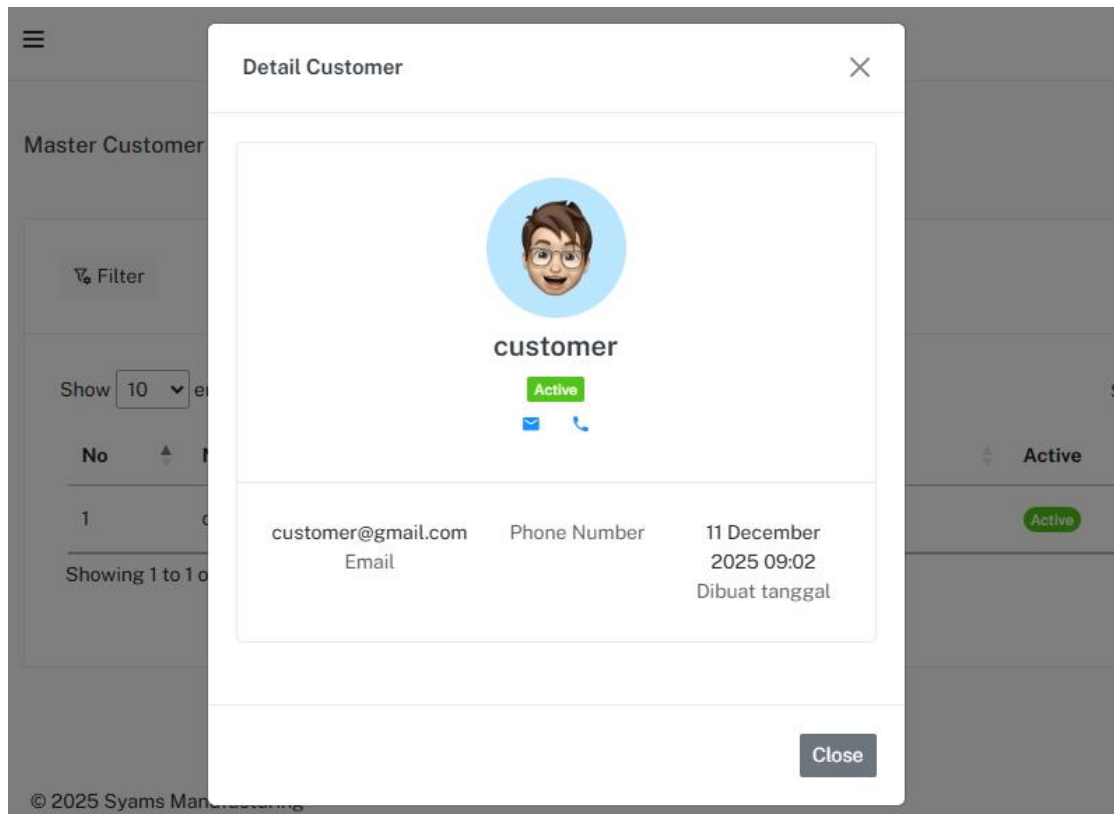

Profile

☒ Active

Close Update

1. Data Customer tidak bisa diinput melalui panel admin, karena customer bisa registrasi mandiri lewat depan.
2. Di paneladmin hanya bisa melihat dan mengedit active nya akun customer tersebut.
3. Input Active berfungsi untuk aktivasi akun tersebut. Jika active di checklist maka customer tersebut bisa melakukan login. Jika input active tidak di checklist, maka customer tersebut tidak dapat login.

D. Detail

Dalam form detail menampilkan detail-detail customer tersebut.

E. Hapus

Jika data customer dihapus, maka customer tersebut sudah tidak dapat login

F. Export

Export akan menghasilkan file excel. Jika filter diset, maka data yang di export akan sesuai filter tersebut.
